Denmark State Bank Breaks Ground on New Location

Town of Lawrence – De Pere, WI – Denmark State Bank broke ground on a new branch location on the corner of Mid Valley and Scheuring Roads.

To further enhance their growth in the greater Green Bay market, Scot Thompson, CEO of Denmark State Bank, is proud to be expanding with new Denmark State Bank branch locations in the Town of Lawrence and Howard. The new locations will open in early 2017. In addition to their existing branch locations in Denmark, Bellevue, Reedsville and Whitelaw, their new locations will better serve their customers throughout Northeast Wisconsin by offering improved customer access to their products and services.

Thompson further expressed his enthusiasm about the new locations stating, “We’re proud of our history and commitment to serving local communities since 1909. Over the years, our customer base has expanded as individuals sought opportunities to work, open businesses and raise their families throughout the area. Our new locations will allow us to serve the greater Green Bay area by placing a branch within 10 minutes of nearly every household and most will be much closer.”
