DENMARK, WI May 14, 2020 – DepositAccounts.com, a subsidiary of LendingTree, has released its 2020 analysis of the healthiest banks in America.

“It is such an honor to have Denmark State Bank recognized among the healthiest banks in America,” said Scot Thompson, CEO and President. “Since 1909, we’ve relied on the trust and support of our customers and communities which has been the driving force behind our commitment to excellence and we are grateful and proud to have been recognized among the best in our industry.”

DepositAccounts.com evaluates the financial health of over 10,000 banks and credit unions in the United States once per quarter. To determine bank ranking and recognition, DepositAccounts.com grades each institution on a number of factors, including capitalization, deposit growth, and loan-to-reserve ratios.

“We believe it is important to give consumers a way to evaluate the financial health of their institutions,” said Ken Tumin, founder of DepositAccounts.com. “Our list empowers consumers to make informed decisions when selecting a financial institution.”
